

Take your cards before they are taken in this speedy game!

● 7 Color Cards ●

2-6 players, Required Time: 10-15 minutes, Difficulty: ★☆☆

*The Deck

Use all seven suits. You will not use the rainbow card for this game.

*Object of the Game

The object of this game is to take more cards off the table than the other players. During each round, players find and take as many cards as they can that match the color top card on the pile.

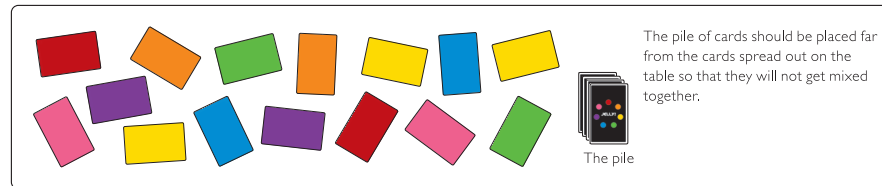

*Set-Up

Take one card of each color, shuffle them, then place them face down in a pile. The remaining cards are shuffled thoroughly and spread color face up on the table.

*How to play

Turn over the top card of the pile face up. As soon as the top card of the pile is shown, all players - including the player who turned over the card - scramble to find and collect the same color cards spread across the table. The turn ends when all of the cards of the same color have been taken. Each player keeps the cards they have collected. The player in turn is allowed to keep the top card of the pile as a bonus card.

The next player turns the next card on the pile face up and all players again scramble to take all cards on the table of the same color cards. This process will be done a total of six times.

*Game Over

After the second to the final card has been turned up and the cards on the table are collected except for one color, the game ends. The player with the most cards wins.

*Easier Rule

After the second to the final card has been turned up and the cards on the table are collected except for one color, the game ends. The player with the most cards wins.

*Extended Rule

Shuffle all the cards (except the rainbow card) and draw a card. Keep it face down until the end of the game. After the game is over, turn the card over to reveal its color. All cards of this color are now worth two points instead of one.
